We Need **Your** Input To Help People with Disabilities Quit Smoking!

Please join us for a 1-hour Tobacco Cessation Focus Group
at MOBILE Center for Independent Living

**Tobacco Cessation Focus Group**
**Date:** Friday, December 19th
**Time:** 11:00 AM to 12:00 PM
**Location:** MOBILE Center for Independent Living
690 High Street
Columbus OH 43206
**Refreshments will be provided**

The **Ohio Disability and Health Program (ODHP)** is a statewide program with goals of improving the health of people with disabilities. In Ohio, people with disabilities are much more likely to smoke than people without disabilities. Since smoking is such a major health risk, ODHP wants to help more people with disabilities quit.

To learn more about the best ways to help the disability community quit, we need your help. ODHP is asking people who have disabilities and personal care attendants (PCAs) to take part in a tobacco cessation focus group. During the focus group, we would ask for your opinion on different smoking cessation messages and for your feedback on what kind of messages would make you want to quit. **You do not have to be a current smoker to take part in this group.** We are seeking people who currently smoke, have smoked in the past, or who have never smoked. Refreshments will be provided. Your feedback will be a valuable resource in helping us to create smoking cessation materials that can make a difference.

**Space is limited - Please let us know ahead of time if you would like to attend or have any needed accommodations.** Contact: Rosalind Gjessing at (614) 688-2928 or rosalind.gjessing@osumc.edu
