THE NISONGER CENTER
IDD/RESEARCH FORUM PRESENTS:

ROSE NEVILL, MA
IMPACT OF CHILDREN WITH DEVELOPMENTAL DISABILITIES AND BEHAVIOR PROBLEMS ON PARENTING STRESS

LESLIE MARKOWITZ, PSYD
CURRENT NISONGER CENTER CLINIC RESEARCH PROJECTS

Please Join Us:

Wednesday, February 13, 2013
5:15 – 6:30 PM
250 McCampbell Hall

Featured Presenters:

Rose Nevill received a BS in psychology and a BA in human development from Virginia Polytechnic Institute and State University. She received an MA in IDD psychology from Ohio State and is a doctoral student in the IDD psychology program at Nisonger Center, UCEDD. Current research focuses on exploring specific challenging behavior in children with developmental disabilities and how these behaviors impact both their developmental outcomes and family relationships. She is also interested in further characterizing the behavioral phenotypes associated with specific neurodevelopmental disorders.

Leslie Markowitz, PsyD, received a doctorate in clinical psychology from Wright State University in 2012. Her training has focused on children with autism and developmental disabilities, as well as other pediatric populations. She is currently participating with research projects examining social skills development in elementary school students with ASD, adherence to psychological assessment recommendations, and early interventions with preschoolers.

Please plan to attend and be seated by 5:10 PM.
