# PSYCH 7189-0355 Supervised Field Experience in Intellectual and Developmental Disability Psychology

Instructor: Andrea Witwer, PhD
Office: 371 McCampbell Hall
Telephone: 614-685-8721

Email: andrea.witwer@osumc.edu

#### **Description:**

Once competency is reached with the IDD Psychology Practicum at Nisonger, students enroll in external practica (PSYCH 7189-0355 Supervised Field Experience in Intellectual and Developmental Disability Psychology) for approximately 20 hours/week. It is expected that these external placement will begin the students third year in the program. This field experience will take place at the Nationwide Children's Hospital Child Development Center and other field placements that serve IDD populations. All sites must agree to parameters outlined in this syllabus as well as the documentation as described. Nisonger Clinics and Nationwide Children's Hospital are a pre-approved site. Students wishing to complete experiences at other relevant site should submit a plan for supervision and experiences from the site. This will be reviewed by the IDD Training Director and IDD Faculty for approval. Prior to the beginning of the experience, it is expected that the IDD Psychology Program and the site have a traineeship agreement in place (See Appendix A ).

All sites will be expected to adhere to the expectation as detailed in the traineeship agreement (see appendix A).

- 1. During extern placements, trainees will be expected to.
  - Conduct additional developmental assessments to obtain exposure to a higher volume of individuals with increasing level of independence OR
  - If Placement in treatment clinics participate in clinical treatment with increasing and appropriate independence
  - Ask External supervising psychologist to complete a quarterly evaluation report on the performance of the IDD Psychology student. (See end of document for competency form)

**Supervision:** A Supervision Agreement should be put in place between the IDD Psychology Student and their direct supervisor (See Appendix B: Supervision Agreement Example). If the direct supervisor is provided by someone other than a licensed psychologist, this must be approved by the IDD faculty. Supervision should consist of weekly supervision meetings.

### **Grading:**

Satisfactory/Unsatisfactory. Trainees will be rated quarterly on progression toward competency (see Appendix B Quarterly Competency Rating Form). Students will be graded as Satisfactory as long as they attend expected hours, meet documentation expectations and guidelines, and actively participate in supervisory and other clinic related activities. A mid-semester meeting should be scheduled to discuss progress. If a student is not meeting these deadlines, at the mid-semester review, the student, supervisor and an IDD faculty member will meet to put a performance improvement plan in place.

**Competency Rating:** It is expected that students will work with their direct supervisor to ensure that Dr. Witwer receives all competency ratings prior to the last day of finals. Students will also be rated

each semester in regard to clinical competency. These become part of their record and will be shared with licensing boards as requested.

#### APPDENDIX A: TRAINEESHIP AGREEMENT

I am sending this letter to revie	w and verify our agreement regarding placement of doctoral students
at	We believe that your site offers IDD psychology graduate
students important opportuniti	ies for professional development and are pleased to be able to place
students with you again this ye	ar.

Students enrolled in the doctoral program in psychology participate in traineeships that last from 6 to 12 months. Regardless of the scheduling and length of time at your site, it is expected that students will attain at least 150 hours of direct client contact during their traineeship. Once the students and his/her supervisors have agreed on a schedule for their placement, it is the students' responsibility to inform the clinic director about the specifics of the training schedule. Students who participate in the placement program work under the supervision of a psychologist employed by the agency where they are placed. We ask the supervisors to evaluate the students at least once during their placement via a mailed/emailed survey. Any problems with the student performance are handled directly between the agency supervisor or agency administrator and me, the Director of Training and Community Outreach.

As a traineeship site, we ask the agency to provide:

- A high quality training experience in a HIPAA-compliant environment with some flexibility
  to meet student interests. The training should include opportunities for the students to
  provide psychological services to individuals with intellectual and developmental
  disabilities, including psychological testing, initial intake assessment, individual therapy,
  group therapy and consultations.
- 2. Supervision by a licensed psychologist who is responsible for the completion of one student evaluation via the Competency Review form that will be provided to you. The Competency Review form should be returned to Dr. Witwer by the end of the Semester (Dec1 or May 1), to facilitate departmental review of student progress and training needs prior to the beginning of the next semester.
- 3. Predoctoral training hours that shall count toward licensure in the state of Ohio, and therefore shall operate under the following parameters (per section 4732.10 of the Revised Code):
  - No less that 25% of the weekly training placement time shall be face-to-face patient/client contact.
  - Weekly face-to-face supervision devoted to the students' cases shall be provided at a ratio of no less than one hour per ten hours on site, no less than one hour per week, and no less than 50% of the supervision shall be individual supervision provided by a supervisor who is a licensed psychologist.
  - Consistent with changing requirements from APA's Standards of Accreditation (SoA), supervision must include direct observation of the student's clinical work on

at least two separate occasions during the traineeship (this can include review of videorecording).

- At least one additional hour per week in learning activities such as additional faceto-face supervision, group supervision, case conferences or grand rounds, didactic consultations with mental health professionals, guided professional readings, seminars, or co-therapy with a license psychologist or other appropriate professional.
- 4. If the licensed psychologist supervisor is unavailable due to planned absence,
  \_\_\_\_\_ will designate an appropriate supervisor to provide for supervision continuity in the interim.

### We from the IDD Psychology Area provide:

- 1. One well-prepared doctoral-level psychology student who has received initial training in HIPAA legislation. The student being placed at your agency is tentatively scheduled for a 6-month placement.
- 2. The student will acquire an anticipated 150 hours of direct client contact, with the schedule of on-site work arranged with the supervisor.
- 3. The student will participate in the required orientation program, as well as provide additional documentation (e.g., background check), as requested by the training program.

If this agreement meets with your approval, please sign below and return to me by \_\_\_\_\_\_. Please feel free to contact me if you have further questions.

Respectfully,

#### **Andrea Witwer, PhD**

Director of Training
Nisonger Center
Associate Professor Psychiatry & Behavioral Health/Psychology
The Ohio State University

#### **Appendix B**

#### **SUPERVISION CONTRACT**

This is an agreement between	(Supervisee) and
	(Supervisors). The purpose of supervision
is to: (e.g., meet requirements for training	ng supervision)
Effective Dates:; Frequency of	Meetings: one to two times per week; Duration of
supervision session: <u>60 minutes</u>	Type of Supervision:: <u>Specficy process of</u>
providing ongoing feedback (reciprocal)	to provide quidance for clinical work as well as
professional growth and development.	

#### 1. Purpose, Goals And Objectives Of Supervision:

- a. To fulfill requirements for training supervision;
- b. To promote development of supervisee's professional identity and competence;

## 2. Context And Content Of Supervision:

- 1. The content of supervision will focus on the acquisition of knowledge, conceptualization, and skills within the defined scope of practice.
- 2. The context will ensure understanding of ethics, codes, rules, regulations, standards, guidelines (including consent, confidentiality/ privacy), and all relevant legislation.
- 3. **A supervisory record form** will be used to document impressions of each supervisory session. Feedback will be provided at the close of each session. Supervision notes may be shared with supervisee.

#### 4. Rights and Responsibilities of both parties

#### a. Supervisor Rights

- 1. To bring concerns/issues about Supervisee's work.
- 2. To question Supervisee about his/her work and workload.
- 3. To give Supervisee constructive feedback on his/her work performance.
- 4. To observe Supervisee's practice and to initiate supportive / corrective action as required.

### b. Supervisor Responsibilities

- 1. To uphold ethical guidelines and professional standards.
- 2. To make sure supervision sessions happen as agreed and to keep a record of the meeting.
- 3. To create a supervision file containing supervision records and other documents relating to development and training.
- 4. To ensure that Supervisee is clear about his/her role and responsibilities.
- 5. To record the supervision session and to store their copy in the supervision file.
- 6. To monitor Supervisee's performance.
- 7. To set standards and assess the Supervisee against these.
- 8. To know what Supervisee is doing and how it is being done.
- 9. To deal with problems as they impact on the Supervisee's performance.
- 10. To support supervisee and the agreed personal development plan.

#### c. Supervisee Rights:

- 1. To uninterrupted time in a private venue.
- 2. To Supervisor's attention, ideas and guidance.
- 3. To receive feedback.
- 4. To set part of the agenda.
- 5. To ask questions.
- 6. To expect Supervisor to carry out agreed action or provide an appropriate explanation, within an agreed time frame.
- 7. To have his/her development/training needs met.
- 8. To challenge ideas and guidance in a constructive way.

## a. Supervisee Responsibilities:

- 1. To uphold ethical guidelines and professional standards;
- To be prepared to discuss client cases with the aid of written case notes and / or video / audio tapes;
- 3. To validate diagnoses, interventions, approaches and techniques used;
- 4. To be open to change and use alternate methods of practice if required;
- 5. To consult supervisor or designated contact person in cases of emergency;
- 6. Implement supervisor directives in subsequent sessions; and
- 7. Maintain a commitment to on-going education and the psychology profession.

#### 3. Procedural considerations:

- Supervisee's written cases notes (plus diagnoses and treatment plans) and audio / video tapes may be reviewed in each session;
- b. Issues relating to supervisee's professional development will be discussed;
- c. Sessions will be used to discuss issues of conflict and failure of either party to abide by the guidelines outlined in this contract. If concerns of either party are not resolved in supervision, David Michalec, PhD and/or Caroline Murphy, PhD will be consulted; and
- d. In event of an emergency, supervisee to contact supervisors. If not available, then contact David Michalec, PhD and/or Caroline Murphy, PhD

#### 4. Expectations for clinical/professional practice

- a. Supervisees are expected to follow all NCH policies and procedures.
- b. Timeliness to clinical appointments, meetings, and supervision is expected. If the supervisee will be late, it is their responsibility to contact their supervisor as soon as possible.
- c. Supervisee will provide all patients with Supervisory status form and will note supervision status in notes.
- d. All notes should be complete with 48 hours and require a co-signature
- e. Written reports are due 10 days after seeing the client (as supervisee training progresses, efficiency goals may change).
- f. Supervisee will document all patient contact (including but not limited to: in office visits, phone calls, faxes).
- g. Any concerns that a child may be harmed, has been harmed, or harm has been reported, needs to be discussed with supervisor immediately. CPS reports (if applicable) should be made before you leave at the end of the day and no later than 24 hours.
- h. Supervisees are expected to review charts ahead of time for clients they are providing services to or observing.

This contract is subject to revision at any time, upon the request of either the supervisee or the supervisor. A formal review, however, will be conducted at the end of the externship placement and revisions to the contract will be made only with consent of the supervisee and approval of supervisor.

	, to uphold the guidelines specified in this s ory relationship and supervisory process accor

# **Overall Assessment of Trainee's Current Level of Competence**

Please provide a brief narrative summary of your overall impression of this trainee's current level of competence. In your narrative, please be sure to address the following questions: What are the trainee's particular strengths? What are the trainee's particular weaknesses? How can he/she improve upon these? Do you believe that the trainee has reached the level of competence expected by the program at this point in training?
